

BRYAN WEEKLY EAGLE

AND PILOT

Published every Thursday by the Eagle Printing Co., Ed. E. Talmage, Editor; Arch B. O'Flaherty, General Manager. Member of Associated Press. Entered as second class matter, April 28, 1910, at the postoffice in Bryan, under act of March 9, 1879. Rates of subscription: One year, \$1.00, absolutely in advance; six months, 75 cents. Cards of thanks and resolutions of respect, 5 cents per line; other advertising rates on application. Active correspondents wanted. Daily Eagle every day except Sunday.

VOLUME XXXV.

Bryan, Texas, Thursday, May 9, 1918.

NUMBER 31

REGISTRATION CARDS FOR 21 YEAR OLDS TO BE ISSUED SHORTLY

**Notwithstanding Bill
Has Not Been Passed
Provost Marshal
General is Prepared
to Act Quickly.**

The local exemption board has a form letter from Major John C. Townes, supervisor of the selective service law in Texas, advising that in a few weeks supplies of blank forms and necessary printed matter necessary to the registration of men coming of age since June 5, last will be forthcoming. Practically the same routine that obtained last year will be followed, although the registration card has been modified to some extent. It will be printed in blue to distinguish it from the cards previously issued. The registration certificate has also been modified, but the old forms will be used until the supply shall have been exhausted. As to the number who will be called upon to register the letter says:

"It is known that about 10-12 per cent of the total number of registrants shown in the column 'total registrants,' in appendix table 45 of the report of the provost marshal general were 21 years of age, and it is believed that approximately the same number will be required to register this year." Taking this as a basis for estimating Brazos county would have about 220 registrants.

It is understood here that the bill requiring the registration of these young men has not been finally passed by congress and signed by the president, but as no objection has been raised to the measure except as to details it is confidently expected that it will pass. The necessary printing seems to have been done in advance in order to be ready to act immediately after the bill becomes law.

Five Men Leave Friday.

The following five white men have been selected to report at Fort Sam Houston Friday, May 10, in response to a call from the war department: Gus B. Bukowski, James H. Stephenson, Elmore Stephenson, Louis Fridel, Edward Dugart. Mr. Bukowski will join the party in Austin, Mr. Dugart reported at the local exemption board this morning from Beeville. He has volunteered as a painter but has not yet been accepted as such.

A call was received May 6 for two men specially qualified for entrance into the army mechanics school, to report May 8. Owing to late short notice the local board has not been able to fill the call in the specified time.

The next call is for two men to report May 16 for training as mechanics at the University of Texas.

A call is expected any day for a big bunch of men on May 26 to furnish Brazos county's quota of the 233,732 men to be inducted during the five days beginning on that date.

Carll Announces for Commissioner

The Eagle has been authorized to announce the candidacy of E. D. Carll for the position of commissioner of precinct No. 1 subject to the action of the Democratic primary, July 27. This is Mr. Carll's first advent into the arena of politics, and he is induced to shy his hat into the ring because he was asked by many friends to do so, those knowing his worth and ability. He is a native Texan and has been a resident of the county for over 20 years. Having been a success as a farmer and stock raiser he is well known and highly esteemed, and if elected his business experience and native ability will prove of value to the people.

War Prices Run Up School House Bids

Only two bids were received for the construction of the high school building when the committee assembled to open them last night. It was found that the lowest bid, to which would be added the lowest bids for plumbing, electric wiring and architect's fee, would run the total bill to about \$110,000, whereas only \$90,000 is available under the bond issue.

M. L. Waller, the architect, took the bids, plans and specifications for a review to ascertain if a satisfactory building could be completed for the amount of the appropriation, and is to report to the committee some time today. War prices for labor and materials have produced the situation.

LADIES ORDERED TO A DANCE.

Headquarters Signal Corps, College Station, Texas, May 7, 1918. To the Red Cross Ladies, Bryan, Texas: Special order 1234: You will proceed to the gym at College Station, Texas, to arrive not later than 8:30 p. m. Saturday, May 11, reporting on arrival to the officer in charge for dancing. By order of the committee. Signed, Officers and enlisted men of the signal corps.

The above is the novel form of invitations issued by the signal corps in training at the college as a return and in appreciation of courtesies.

SUFFRAGE REJECTION CAUSED THE KAISER TO HASTEN HOME

(By Associated Press)
Berne, Switzerland, May 8.—Emperor William has returned to Potsdam owing to the political crisis resulting from the rejection of suffrage reform by the Russian diet. Chancellor Hertling has been summoned to Potsdam to report on the situation.

Funston is Captain in Signal Corps

It is now Captain M. C. Funston who is in command of the signal corps service company school for radio mechanics at A. and M. college official notice of the commander's promotion from a first lieutenant to a captaincy having just reached the campus from headquarters at Washington. The news was gladly received at college, for the commanding officer of the signal corps detachment is quite popular, not alone with his men but with campus residents generally.

Captain Funston has been in the signal corps service for 20 years, having enlisted in the spring of 1898 and engaged in the Spanish-American war. He has seen active service in Cuba, the Philippines, Alaska and Panama, and for some time was stationed at Fort Sam Houston and Leon Springs with the ninth field battalion.

Last November he was detailed to recruiting duty and while at A. and M. on that mission enlisted a number of upper classmen in the signal corps. As a result of his success here he was assigned to command company K, when it was organized at College December 8, and has been in command there ever since, where his work has been very successful. Company K has been superseded by the service company school for radio mechanics, and 100 of the original men have been transferred to other points, some of them to active service and some to officers training camps, and 200 additional men are expected soon from Fort Sam Houston.

Captain Funston is a cousin of the late General Frederick Funston.

A Dodge passenger car and three Ford trucks for the use of the school for radio mechanics will arrive overland from Fort Sam Houston today, according to advices Captain Funston has received.

TEXAS GERMANS WHIPPED.

Eagle Lake, Tex., May 8.—The Eagle Lake Home Guards were busy Friday and Saturday working in the German settlements, boosting liberty bonds. One German farmer reputed to be wealthy refused to buy bonds. He was brought to town and ordered to buy \$2000 in bonds, which he did. His son resented the treatment accorded his father. A crowd soon gathered and he received a whipping with a rope and one other man was whipped and forced to kiss the flag. The liberty loan flag was to have been raised here Saturday afternoon, but owing to the heavy rain all afternoon it was postponed.

A. and M. Track Men Ready for Big Meet

Members of the A. and M. track team, under the constant coaching of Prof. H. R. Brayton, are ready for the Southwestern Conference meet at Norman, Okla., Friday and Saturday for which place they leave Thursday night. The men have shown good development since the dual meet at Austin, where they lost to the Longhorns by the narrow margin of 5-1-2 points, and Prof. Brayton is expecting them to bring home a handsome collection of points and medals Sunday afternoon.

The entries for the several events are:

100-yard dash—Sheram, Hudson, Hugon.
220-yard dash—Hugon, Sheram, Mahan.
440-yard dash—Jones, Hugon, Sheram, McQuillen, Williamson.
880-yard dash—Lee, McQuillen, Wendt.
120-yard hurdles—Jonas, Wiprecht.
220-yard hurdles—Sheram, Hudson, Jonas.
Pole vault—Mahan, Landon, Denny.
High jump—Wiprecht, Tyler.
Broad jump—Sheram, Tyler, Dinan.
Shot put—Sexauer, Dinan, Neuman.
Javelin throw—Mahan, Tyler, Dinan, Neuman.
Discus throw—Sexauer, Dinan, Mahan, Neuman.
1 mile relay—Jonas, Lee, McQuillen, Sheram, Hugon, Williamson.

GREAT LAKES SAILORS GONE.

(By Associated Press)
Great Lakes, Ill., May 8.—All men who entered the navy training school here last winter had been called to active duty by May 1. During December and up until January 15 thousands of apprentice seamen reported at the station. Unusual calls from the fleet have taken everyone of these men as fast as they completed their three months' course of training. Since April 15, the date they finished their training period, these men have been leaving the station in large quotas. A majority were assigned to eastern receiving ships.

EXISTENCE OF BRITISH CABINET THREATENED

Huns Deport Italians, Outrage Their Women and Divide Families

(By the Associated Press)
Washington, May 8.—Wholesale deportation of the population of the invaded districts of northern Italy has been resumed, the Italian embassy here has been advised. Outrages are said to have been committed against women and families are purposefully divided.

AUSTRALIANS PUSH FORWARD AT COUPLE PLACES LAST NIGHT

**One Party Gained 500
and another 300 yards
Notwithstanding a
Heavy German Bar-
rage.**

(By Associated Press)
British Headquarters in France, May 8.—The Australians last night made another advance, pushing forward their lines 500 yards along a front of 600 yards near Sully Le Sec, east of Amiens. They also pushed back the Germans 300 yards along a front of 500 yards west of Morlaucourt, just above Sully Le Sec. Notwithstanding a heavy barrage, the Germans were unable to prevent the British advance.

Captain Hall Reported Missing.

(By Associated Press)
American Headquarters in France, May 8.—There has been great aerial activity on the American sector southwest of Toul and Captain James Hall, famous French and American army flier, is reported missing after a battle in which he and two other Americans engaged four Germans.

The whole American army is mourning over the loss of Captain Hall. All wonder whether he was killed or was able to bring his machine safely to earth after his battle in the air over Pagny-Sur-Moselle.

Private Troy Forest, Mammoth Springs, Ark., listed as killed in action. Privates Bryan Andrews, Antoine, Ark., and Homer Hadden, Ponca City, Okla., wounded slightly.

More Hostility About Kemmel.

(By Associated Press)
London, May 8.—Successful minor operations last night resulted in an advance of the British lines a short distance in the Amiens sector between the Somme and Ancre rivers, the war office announces.

Increased hostile artillery developed early this morning on the Flanders battle front between Beteren and Kemmel.

Artillery Along Aves.

(By Associated Press)
Washington, May 8.—Heavy artillery fighting occurred last night on both sides of the Aves river southeast of Amiens, it is announced officially.

Rehearing Denied in Spannell Case

(By Associated Press)
Austin, May 8.—The court of criminal appeals today refused to grant the state's motion for a rehearing in the case of W. J. Spannell, charged with the killing of Colonel M. C. Butler at Alpine July 20, 1916.

BIZZELL TO EDITORS.

Dr. W. B. Bizzell, president of A. and M. College, will leave tonight for Fort Worth, where he will deliver an address tomorrow morning before the State Press association on "Agricultural Development and Rural Welfare."

While away he will make an official visit to the Grubbs Vocational school at Arlington, a branch of the college, and the Junior A. and M. college at Stephenville.

CAPTAIN SIMS TO LEAVE.

Captain B. U. Sims, now in the uniform of a soldier of the medical corps, is today shaking hands with his friends preparatory to departure tomorrow to Rochester, Minn., whence he has been ordered to report for a brief period of training after which he will go to Rockford, Ill., and report to the base hospital there. His family will remain here until about the first of June and after that with him until he departs for the European battle front.

The doctor formally tendered his resignation as city commissioner today, and the commission will probably order an election at their regular meeting tomorrow night.

FAMINE AND DISTRUST RISE AMONG PEOPLE OF CENTRAL POWERS

(By Associated Press)
Stockholm, May 8.—The Politiken publishes an interview "with a person in an important position" who has traveled through the countries of the central powers. He gives dark conditions there. Famine prevails and discontent never was so great. Different nationalities regard each other like hungry wolves. Hungary, with plenty to eat, boycotts Austria, which is starving. Almost nothing is coming from the Ukraine because the Bolsheviks burned everything in their retreat. German provinces say their loyalty is being retarded by hunger.

"The Czechs are united in supporting a Czech republic," the traveler says. "Even the south Slavs are more openly taking a front against the Hapsburgs."

Conditions in Germany, the traveler reports, are quite different. The food situation is better than a year ago but the general feeling even amongst the laboring classes is that victory is certain.

ONE OF THE LARGEST WHEAT YIELDS ON RECORD INDICATED

(By Associated Press)
Washington, May 8.—The agriculture department forecasts a wheat crop of 572,539,000, basing its estimate on conditions existing May 1, and on a canvass of the acreage remaining to be harvested. With continued favorable conditions the crop will be one of the largest ever grown.

The acreage planted May 1 was 36,392,000 acres. The production of rye will be \$2,629,000 bushels, based on conditions \$5.18 of normal.

The wheat acreage of May 1 was 13.7 less than the acreage planted last autumn. The condition of the crop was 84.6 per cent of a normal crop. The indication is for an acre yield of approximately 15.7 bushels.

With an increased spring wheat acreage which preliminary reports indicate and good growing conditions it is now probable that the government's plan for a billionbushel wheat crop this year to help feed allies may be realized.

Signal Corps Men At Training Camp

Although the 57 men who left the signal corps service company school for radio mechanics at College several weeks ago are now widely scattered, due to orders sending them to various places, copies of general orders received by Lieutenant M. C. Funston, in command of the school, show that his recommendations for men to attend the officers training camps were largely approved.

Among the men who left here a month ago, E. C. Tuerpe, R. G. Pustovsky, H. E. Rollins, J. W. Grace, A. R. McLean, P. L. Neal, O. Winchell, E. A. Abbott, Theodore G. Teague, along with C. A. Seale, at present with the school here, will attend the signal corps officers training school, which opens at Leon Springs May 15, while George B. Morgan, D. E. Martin, J. W. ("Skinny") Williams have already gone to Petersburg, Va., for the engineering officers training school which opened yesterday.

ALL'S WELL WITH A. AND M. MEN IN FRANCE.

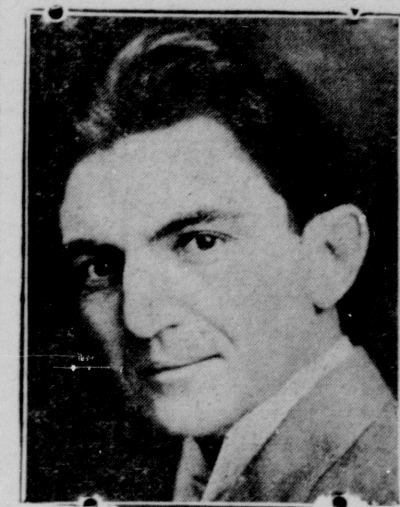

"The country, the people, the cause, the work, are charming," H. A. Topping '17, writes President Bizzell, from "somewhere in France" where he is attached to detached wagon company No. 1, 23rd engineers, American expeditionary forces. Continuing he says: "Only wish every A. and M. man could be with us. But these fascinating experiences make me none the less enthusiastic over the prospects of an early and successful end of the war."

SHIPPING BOARD'S WANTS.

(By Associated Press)

Washington, May 8.—Estimates submitted to congress by the shipping board call for an appropriation of \$2,223,835,000.

PRICE REVIVAL AT METHODIST CHURCH TO START SUNDAY

Rev. Thurston B. Price.

A revival at the First Methodist church is to be started next Sunday morning, Rev. Dr. E. W. Solomon having secured the services of Rev. Thurston B. Price as evangelist and F. W. Rollins as singer. Rev. Price is well known in Bryan, having conducted a revival here during the pastorate of Rev. Glenn Flinn. He stands well as a revivalist, as a great many of Bryan people are quite willing to attest. Dr. Solomon knows him personally and personally recommends him. Mr. Rollins has the reputation of being not only an excellent singer but an able choir director. He hopes and expects to organize a mammoth choir by securing the services of all the singers of the city.

COMPLETE CENSUS OF BRAZOS COUNTY TO BE TAKEN SOON

Captain J. T. Maloney of the Brazos county home guard is preparing to take a complete census of the people of the county in the next few days. Blanks have been printed and are to be distributed to the different guardmen in the county, who are to devote one or two full days, as may be necessary, to securing a full and complete enrollment of every person in the county. These blanks call for the name of the head of the family, the number, names and ages of the children, his nationality and citizenship, occupation, if a tenant whose land he works and how many acres he has in cultivation and the crops he is working, the number of head of live stock, whether he has surplus labor or whether he needs labor and the kind of labor needed.

Army Aviators Killed.

(By Associated Press)
Mineola, N. Y., May 8.—Two army aviators were killed today when their machine fell near Central Park, Long Island.

Upper Classmen to Training Camp

Practically all of the seniors and juniors who have been given furloughs by the college authorities in order that they may attend the fourth officers training camp, which opens May 15 at Camp Bowie, have left college to spend a few days at their homes before taking up their new duties. Due to the fact that they were leaving at different times, only one regular function was planned in their honor, the reception tendered them and their young women friends at the Y. M. C. A. last Friday night by the campus residents.

The seniors who will enter the training camp are J. H. Melton, F. J. Hockaday, W. J. Ray, W. E. von Rosenberg, V. J. Shiner, C. M. Copeland, O. L. Snow, A. N. Sanders, A. D. Carson, T. C. Lipscomb, W. W. Bates, T. E. Hagan, J. M. Phillips, G. R. Warren, F. A. Cooper, R. C. Leffel, L. E. Prier, J. B. McKnight and Carl Wiprecht; while the juniors who will attend are A. A. Rasmussen, J. R. Slay, R. E. Merrell, N. H. Klock, C. L. Becker, M. R. Wormser and H. N. Clayton.

ALL'S WELL WITH A. AND M. MEN IN FRANCE.

"The country, the people, the cause, the work, are charming," H. A. Topping '17, writes President Bizzell, from "somewhere in France" where he is attached to detached wagon company No. 1, 23rd engineers, American expeditionary forces. Continuing he says: "Only wish every A. and M. man could be with us. But these fascinating experiences make me none the less enthusiastic over the prospects of an early and successful end of the war."

Charges of General Maurice May Give Asquith Power

Asquith's Motion, Which is to be Debated Tomorrow, would be a Vote of Censure for the Present Government--Maurice Letter and Newspaper Interviews Criticise Gen. Foch and Impugn Veracity of Lloyd George and others

(By Associated Press)

London, May 8.—The action of General Maurice, former chief military director at the war office, in impugning the veracity of government leaders has created a serious political situation which threatens the cabinet's existence, according to several morning papers. Administration supporters say former Premier Asquith and his followers are backing Maurice and that the affair is a maneuver to oust the Lloyd-George cabinet and substitute a cabinet headed by Asquith, Viscount Grey and Marquis Lansdowne. It will be debated Thursday and will be the most serious the government has yet faced.

The government has summoned the supporters to be present Thursday. "Mr. Asquith will move a resolution which, if carried, will be a vote of censure of the government." "A division is absolutely certain," says the call. According to press associations the proposal to refer the Maurice affair to two judges may be regarded as withdrawn, as the suggestion did not appeal to the house and it was rejected by Asquith and his followers, which rendered it worthless.

Andrew Bonar Law, government spokesman in the house of commons, announced yesterday that the government proposed to ask two judges to act as a court of honor to investigate the charges made by General Frederick B. Maurice, who was recently removed from the post of director of military operations at the British war office.

Mr. Bonar Law said the army council is dealing with questions of discipline growing out of a letter written by General Maurice. "General Maurice's letter," said Mr. Bonar Law, "raised two questions—the question of military discipline involved in writing such a letter and the question of veracity of ministerial statements. "As regards the first question; that is being dealt with by the army council in the ordinary way. As regards

the second question it is proposed to invite two judges to act as a court of honor to inquire into the charge of misstatements alleged to have been made by the ministers and to report as quickly as possible."

Former Premier Asquith gave notice that he would move for the appointment of a committee from the house of commons to investigate the Maurice affair instead of having the inquiry made by judges. This is the motion that will be debated on Thursday. The letter of General Maurice—written to the morning papers, in which it appeared yesterday, it charges Mr. Bonar Law and Premier Lloyd George with having made misstatements in the house of commons with reference to military matters and says they are the latest of a series made recently by the government in parliament.

General Maurice last month—was transferred from the British war office to active duties in the field. His position as chief director of military operations was taken over by General Delma Radcliffe, formerly chief staff officer of the Canadian army and chief of the British military mission at Italian headquarters.

Shortly before his transfer General Maurice in one of his customary weekly interviews with American newspaper men, made remarks which were considered in some quarters as reflecting on General Foch, the commander in chief of the allied forces. At one point of the interview he drew a parallel between the situation on the battle fronts in France as it stood then and the battle of Waterloo when Wellington was awaiting the arrival of Blucher.

General Maurice then asked, "What is happening to Blucher—what has become of the reserves?"

On the following day General Haig, commander of the British forces, announced that French reinforcements had reached the British front and this was taken as proof by military critics that General Maurice's intimation that Foch was slow in coming up was unjust.

GERMAN DOMINATION IN UKRAINE PRODUCES ANARCHY AND RIOT

(By Associated Press)
London, May 8.—Anarchy is spreading throughout the Ukraine as a result of German action in overthrowing the government and replacing it with another, according to Exchange Telegraph dispatch. There have been riots in several places and during a serious outbreak in Kiev a large number of persons were killed. An attempt was made to kill the Ukrainian premier but he escaped with slight wounds.

SUNDAY MOTHERS DAY.

(By Associated Press)
Austin, May 8.—Governor Hobby proclaimed Sunday, May 12, as "Mother's Day."

VEGETABLES FOR RED CROSS.

From the war garden beans, beets, radishes, onions and Swiss chard are offered for sale, orders to be filled tomorrow morning. The proceeds from the war garden go to the Red Cross.

RAILROAD WAGES RAISED.

(By Associated Press)
Washington, May 8.—The railroad wage board today announced its award in the application of railroad employees for wage increase.

Kaiser is Filled With Gratitude and Joy Over Rumania

(By the Associated Press)

Berlin, May 8.—Emperor William replied to Chancellor Hertling's congratulations on the conclusion of peace with Rumania with this message: "The termination of a state of war in the east fills me with proud joy and gratitude. Thanks to God's gracious help, the German people, with the never failing patriotism under brilliant military leadership and with the assistance of strong diplomacy, are fighting step by step for a happy future. God will help us pass through the struggle."

EDITORIAL DEPARTMENT OF THE BRYAN WEEKLY EAGLE

An Unlimited Army.

The American people are given to understand that a steady flow of troops is moving in the direction of France now, due to the completion of training and equipping and the providing of sufficient tonnage. We are also given to understand that by the end of the year we shall have or can have if need be, 3,000,000 men on the battle front in Europe. Four months ago, when congress was delving into things pretty deeply and a lot of people were saying a lot of things for which they had insufficient foundation, in fact, the conditions were far from being as promising as published statements now coming forth daily from Washington would indicate to the American public. We are now supposed to believe that a very substantial fighting force exists on the western front and that ships are moving more in that direction. The matter of forming the troops to organizations, which would have delayed their movement to Europe very materially, has been postponed until they arrive there. The men are hurried forward to the ships and rushed across with all possible speed, and the fact that the German papers are warning the German public to beware of the American menace leads to the supposition that the German high command is beginning to feel the pressure of the additional American troops.

Secretary of War Baker went before congress Thursday and asked for an indefinite number of men to comprise the American army. He wants that army to consist of just as many men as the people of the United States can furnish and the public officials can equip and transport. A while back we were told that the shipping problem was the serious obstacle to the moving of troops and supplies. Since then we have chartered a large amount of tonnage from Japan; requisitioned a large amount from Holland, Great Britain's ship yards have been turning out unusual quantities of tonnage and our own shipyards, just lately lined up for actual production, have begun to turn out 250,000 tons a month, an amount that will be very greatly increased as time goes on. Meanwhile the submarine menace, while it has not ceased altogether, is not the terror of the seas it has been. We are promised that by July there will be no submarine menace, which may mean the bottling up of other harbors or the incursion into the North Sea of the allied fleet to engage the German

fleet, or both, with the expectation that anything German that floats shall be sunk or destroyed. Thus with added tonnage and a reduction of the submarine menace the movement of troops to the battle front is likely to continue unabated. It has been intimated that two months of training at the cantonments will be sufficient for the soldiers on this side, hence the steady stream would continue. More heavy drafts of men are being made constantly, so that the present legal limit of the army will have been reached in a few months and it seems likely that the whole force will be in Europe by early fall. None are being taken in the army now except volunteers and those under class 1. It is expected that the law requiring the registration of young men as they come of age will be finally passed shortly, which will produce another large contingent for class 1. After class 1 would come class 2 and so on down the list of 10,000,000 men who are available for service in the army in some of its numerous branches. That the men to build just as big an army as President Wilson and his advisers may think necessary are to be had is beyond question. The thing is to train, equip and get them to Europe in time to crush the Hun so flat and so deep he will not be available even as an oil field.

The weak point of our army preparations seems to be in aviation. About a year ago we were inclined to boast that the United States would have a flock of airships so great as to cloud the sun, we feeling at that time that the great supreme test was to come in the air. We may feel the same way about it now, but we must admit that much criticism is being expressed regarding the progress being made, and that the airships are not as yet forthcoming in the numbers necessary to create that great flock we had pictured in our mind's eye a year ago. It is also true that spies and other dirty workers have been discovered in airplane plants, possibly as a result of our boasting about what we expected to do in the air. The kaiser doubtless realized that as air fighters we would be able to put it over him good and plenty, and has attacked us at the point most vulnerable, according to our boasting, not realizing that as the French officer said, the Americans are natural born fighters in air or on sea or land. American boys are giving him a taste of real fighting, and he is becoming afraid.

HOBBY CLUB MEETS SATURDAY AFTERNOON IN THE COURTHOUSE

A number of Gov. W. P. Hobby's friends met at the courthouse last Saturday afternoon to organize a Hobby club and otherwise laudate that gentleman's campaign for re-election to the governorship. Owing to the fact that Saturday was a very busy day in Bryan, and to give the meeting more publicity, it was decided to postpone the organization of the club until next Saturday, at which time the governor's friends will gather at the courthouse and perfect a thoroughly businesslike club.

This is a very important matter, and all Bryan voters, as well as those from the county who are able to leave their crops, are urgently requested to attend this meeting and lend their aid. The vote at the primary in July should be practically unanimous for Hobby for governor. The hour set for the meeting is 2 o'clock.

The following gentlemen have signed the call and have promised to be present Saturday if possible to do so.

Woman Suffrage Act As It Applies in Brazos County

The Texas woman suffrage act, passed at the last special session of the legislature, is at least one law that is plain and simple in its language, and it would seem that there is little or no chance for equivocation or misunderstanding of its provisions. As the state primary is to be held July 26 this year, women may begin registering June 26. Section 1 of the act provides that "From and after the passage of this act any woman who possesses the other qualifications of an elector under the constitution and laws of this state, shall have the right to vote at any and all primary elections or nominating conventions held under the laws of this state, and the fact of her sex shall in no wise disqualify such person, provided the payment of a poll tax shall in no case be required of such person as a qualification to vote in such primary elections or to participate in such nominating conventions during the year 1918."

"Sec. 2a. Every woman who possesses the other qualifications of an elector under the constitution and laws of this state and who lives in a voting precinct outside of a city of 10,000 inhabitants, shall have the right to vote in all primary elections held in the year 1918, who shall present herself, personally, at the office of the tax collector of the county in which she lives at any time not less than fifteen days prior to the holding of such primary election and shall personally fill out, with her own hand, in duplicate or upon a form and stub, the form of registration receipt prescribed in section 2 of this bill, and shall sign and swear to same before said tax collector, who shall certify one copy of such receipt in form as prescribed in section 2 of this act and deliver same to such registrant, who shall present same, or an affidavit as to its loss or

destruction when she offers a vote at such primary election.

"Sec. 3a. It shall not be necessary for the county tax collector to furnish the chairman of the county executive committee of political parties, judges of election, or any other person, for use in primary elections, a certified list of women voters except in cities of 10,000 inhabitants and over."

"Sec. 4. Where registration, as above provided in cities of 10,000 or over is required, said registration shall be a necessary qualification for women voting in primary elections. And the provisions in the laws of the state of Texas governing and pertaining to elections and production of poll tax certificates and certificates of exemption required of men, the affidavits in case of loss of said certificates and the penalties for fraudulently or falsely obtaining the same and all other laws for the purity and protection of the electorate, when not in conflict with the provisions of this act, shall apply to and govern the duties, responsibilities and privileges of the women voters of this state, but where in conflict, shall, as to females voting, be governed by the provisions of this act."

"Sec. 5. The provisions of this act shall apply to and govern the voting of women in the primary elections held during the year 1918, and after the 1st of January, 1919, each woman voter in this state, voting and offering to vote in any primary election or convention shall be required to pay the poll tax now required by law of each male person who desires to vote and by all of the laws of the state of Texas, requiring and permitting the voting upon the payment of poll taxes in this state. "Effective June 26, 1918."

BRITISH CASUALTIES SINCE MARCH 20 ARE QUARTER OF MILLION

(By Associated Press.) Washington, May 4.—British losses in killed, wounded, captured and missing since the beginning of the German offensive, March 20, are estimated by the British military mission here at nearly 250,000. They say the indications are the offensive will be continued almost immediately and that if the brunt of the attack is borne by the British the situation will become serious, unless British troops are supported by sufficient reserves.

This estimate would appear to be in remarkable contrast to the enormous German losses in the drive. The German war office, of course, has not disclosed to the world what its losses in the great battle have been, but estimates of allied observers placed the loss of German life at a staggering figure.

Experts point out that from the very nature of the fighting the losses of the attackers are bound to be heavier than those of the defenders. The German method of attacking with advance troops in waves faster than the machine guns could mow them down entailed enormous losses. "Everything points to the offensive being continued," the statement adds, "and if the brunt of the attack is again borne by the British the situation will be serious unless sufficient troops are available nearby to strengthen the line and relieve the British divisions."

Teach Knob Prairie Italians How to Can

Because of previous arrangements to hold a canning demonstration at Knob Prairie, Saturday afternoon, Miss Martha Gillespie, home economic agent for this county, will not be able to hold a demonstration in the courthouse today. The Italians at Knob Prairie have little or no knowledge of the art of canning, but they are anxious to learn that they may save their garden stuff that is so prolific this year. Miss Gillespie hopes soon to have an assistant in this canning work, which will leave her free for her regular work. All her days are occupied in travel, she being in Kurl today with the canning club and will be in Reliance and Independence tomorrow, in Leonard and Woodville Thursday, in Tabor and Edge Ridge Friday and at the latter place will set up the new community cannery.

President Disapproves of Death Sentences

(By Associated Press.) Washington, May 4.—President Wilson disapproves the sentences of four American soldiers in France sentenced to be shot. The privates are Olen Lewoyen, Stanley Fishback, committed to three years' imprisonment at Leavenworth for disobeying orders; Privates Forrest Sebastian and Jess Cook, convicted of sleeping at their posts, pardoned.

FOUR TO WACO CAMP.

From Monday's Daily Eagle. Albert G. Plagens, Luther F. Boyd, Milton Winter and Tom G. Calhoun left today for the aviation camp at Waco, being selected by the exemption board for training there. It is understood that they are to be trained for aviators. Mr. Winter and Mr. Calhoun were selected ahead of their numbers, both being anxious to get into the service of their country against the kaiser.

Dizziness, vertigo, (blind staggers) sallow complexion, flatulence are symptoms of a torpid liver. No one can feel well while the liver is inactive. HERBINE is a powerful liver stimulant. A dose or two will cause all bilious symptoms to disappear. Try it. Price 60c. Sold by M. H. James.

RAINFALL IN BRYAN 1.55 INCHES DURING SATURDAY AND SUNDAY

From Monday's Daily Eagle. The rainfall in Bryan Saturday night and Sunday totaled 1.55 inches. Being unaccompanied by wind, thunder or lightning, it resolved itself into a succession of heavy showers in which the rain came down in large quantities. The skies cleared about 2 o'clock, but there are indications that the rainy season is not even temporarily suspended.

The rain appears to have been general all over the state, places which had heretofore not had precipitation receiving a soaker. This seems to be the movement toward the southeast of the same rain storm that visited the drouth regions of West Texas late last week. Falfurrias, which had suffered a drouth that had entered its third year, was wonderfully relieved. Territory west of these received from one to four inches of rain.

At Goliah three and a quarter inches of rain fell in less than five hours and the San Antonio river immediately rose nineteen inches. At Del Rio the precipitation up to 8 o'clock Saturday night has been five inches.

Bryan does not seem to have received as much rain as fell at other points in central Texas. Lockhart reports six inches and Cameron two inches Sunday.

BROTHERS IN FRANCE MEXICAN WANTED TO JOIN THEM AND FIGHT

In southern Texas most of those who failed to respond to the call for physical examination or to fill out the questionnaires have been Mexicans. Fearing the draft and not understanding that as citizens of Mexico they could not be legally drafted to serve the United States they promptly hiked for Mexico. However, Mexicans who were born in this state and have been schooled here have as a rule, remained loyal to the country. One of these, Jose R. Fuentes, registered as was examined, made no claim for exemption and when his number was reached went to George Griffin, clerk of the local exemption board with a request that he be permitted to remain a couple weeks longer, as his father is ill and not expected to live. Mr. Griffin sent him to Hon. Lamar Bethea, that the request might be put in proper form, but he could not find Mr. Bethea and returned to Mr. Griffin.

"Oh, let it go. I really don't want to stay except to please my mother. I have two brothers whom I suppose are in France. I waived all claims to exemption and I want to go. I can do my father no good by remaining, as he can never get well but may linger for months."

So he went with the last large increment and is now at Camp Travis taking his course of training along with a big bunch of young Americans.

DECLARED WAR ON GERMANY

(By Associated Press.) San Juan Delsur May 7.—Nicaragua congress today declared war on Germany and her allies.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the system. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address P. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists, etc.

Shoe Department

The cry now is shoes. Shoes are too high. Quite true, but we have made several large purchases and had to buy them in case lots to make these low prices, finding several manufacturers with more shoes than they needed. Money was what they needed. We then made them an offer and bought for spot cash to sell at these prices:

Ladies' one-strap Leather Slippers; all sizes; special 79c. Ladies' two-strap White Canvas Sl

Kaywood, James O. Chance, Jr., L. Rushing, Na-than Roe, Joe Cash, A. N. Carson, Robert T. Smith Ira Gordon, Boy Scouts of Bryan, Leon A. Wilcox, Tom Holick, Sarah Moore.

W. G. REYNOLDS FOR COMMISSIONER.

By reference to The Eagle's an-nouncement column today will be seen the name of W. G. Reynolds, who announces as a candidate for commis-sioner of Precinct No. 4, subject to the action of the July democratic primary.

Mr. Reynolds is one of the county's best known citizens, having lived here practically all his life and there is hardly a voter in the precinct in which he is a candidate, with whom he is not personally acquainted. He is recognized by all as a good man, and citizen, reliable and trustworthy, and a business man of no small abili-ty. His intimate knowledge of the precinct, its various interests and needs, coupled with his ability as a keen sighted business man, it him well for the duties of the office he seeks.

He believes in progress in all mat-ters that are for the general welfare, but does not believe in a reckless ex-penditure of the people's money. He believes in applying the straight edge of business to all matters, and in all county affairs, roads, bridges and other public work his plan will be to make them conform to as strict busi-ness rules as he would in a personal business transaction.

He honored by the people with the position he asks at their hands, he pledges the most faithful service he is capable of rendering and to be al-ways on the job.

The Eagle submits the candidacy of Mr. Reynolds to the voters of the pre-cinct.

ENLISTS 2,000 MEN.

Colonel Will A. Miller of Amarillo, one of the directors of the college, has achieved an unusual record in the enlistment of a regiment of 2,000 men for the cavalry service in one of the new brigades of the Texas national guard, recently authorized by con-gress and the state legislature, in six days. He is a native Texan, has been a resident of Amarillo for 35 years, is a former member of the national guard and quite popular.

Just try one 50-cent bottle of LAX-FOS WITH PEPSIN. A Liquid Digestive Laxative pleasant to take. Made and recommended to the public by Par-medicine Co., manufacturers of Laxative Bromo Quinine and Grove's Tasteless chill Tonic.

ASKS AUTHORITY FROM SENATE TO PROBE DEEP INTO AIRCRAFT SCANDAL

WHAT WAS DONE WITH VAST SUMS OF MONEY?

Chamberlain Says Not a Single Battle Plane Has Gone Abroad and 1500 Cadets Have No Machines in Europe With Which to Train, Although Materials in Large Quantity Had Been Sent Abroad.

(By Associated Press)

Washington, May 7—Chairman Chamberlain of the senate military committee told the senate today that with the support of the senate his committee would investigate the aircraft situation with a view of determining how and where the money ap-propriations for that purpose had been spent. "He said the com-mittee proposed a thorough investigation and that it would at-tempt to put its finger on responsible persons. He said not one American built plane had yet been sent to Europe, although ma-terials in large quantity had been sent for assembly abroad.

"Our people ought to be informed of the truth of the situa-tion and they never have been," he continued.

Chairman Chamberlain said there would be no white wash-ing but the committee would determine how and where the im-mense appropriations were expended, adding that the committee would proceed to "put its finger on the men responsible."

Senator Chamberlain declared that there had been something radi-cally wrong with the whole program. "He had never seen the Borglum report, he said, but declared the conclusions reached in the Snowden-Marshall report were in accord with those of the committee. The senate committee he said was a part of the government authorities and added significantly he was "glad the president approves its course in advance." He said new charges are being brought forth every day to me and other members of the committee. This committee is determined to do whatever is necessary to help win the war."

Referring to testimony of Major General Squire of the signal corps regarding the failure of fifteen hundred American cadets sent to France because no airplanes were available and it is planned to return them to the United States for training, Cham-berlain said a large number of cadets have never received any training abroad.

Senator Walsh of Montana, democrat, declaring the state-ment "extraordinary," asked if it was not a confession of failure "and what explanation had been given?"

"The extreme optimism of the chief signal officer and his associates," senator replied, was the explanation. "They thought in perfect faith, that they would have the planes there to train the men." Senator Chamberlain said the committee has even more important information which it was not deemed wise to publish and said he had received a letter from one of the cadets declaring their morals had been "absolutely destroyed" by failure to receive training.

Senator Thomas, Colorado, democrat, discussing the expen-ditures of the \$640,000,000 aircraft appropriation, said he un-derstood that \$200,000,000 had been "actually expended and that the rest is represented in contracts," which, when completed, would absorb the remainder.

Senator Chamberlain said the original program provided for something like twenty-five hundred to three thousand planes in France by July first. An investigation showed, he said, that such planes can be produced at a "big profit" for three thousand dol-lars each.

New Ice Factory Being Built Here

From Friday's Daily Eagle

Bryan is to have a new ice factory and cold storage plant. It is being located in a storeroom a couple of doors north of the Lawrence whole-sale grocery establishment, and the workmen have it well under way. The cold storage rooms erected look big enough to hold a carload of stuff or more, and the tank for the ice cans is of good size. This is just now being built. Some of the machinery is on hand. Just how soon it will be opened to the public is not known. James Gordin is putting in the plant.

Ray Wilson Injured While at Play Today

From Thursday's Daily Eagle

Ray Wilson, son of the late Mrs. Willie Wilson, was very seriously in-jured at the recess period at the high school this morning. "Bill" Bethea was putting the shot in practice on the grounds and Ray ran in front of him as he was in the act of throw-ing, coming into contact with the twelve-pound ball. He was struck on the right temple and rendered uncon-scious. He was taken to the Bryan hospital, where, late this afternoon, it was reported that he had not regained consciousness. An X-ray is to be taken of the wound. Mrs. Wilson died only a few weeks ago.

ADDITIONAL MEN COME JUNE 15

Capt. F. W. Zeller, commanding the Texas A. and M. college training de-tachment, and Prof. F. C. Bolton, di-rector of the war educational activi-ties of the college, have been advised by wire that the 340 additional me-chanics detailed here for training for special service behind the lines in France, will not arrive until June 15. It had been presumed on the campus, prior to the receipt of definite in-structions, that they would arrive sooner than that.

SPEEDSTERS FINED.

Eight cases in which charges of ex-ceeding the speed limits have been made, have been filed in the corpora-tion court. In two cases the offenders have been fined \$5 and costs, a total of \$8.20, and in one case \$1 and costs, total \$4.20. The remaining five cases remain on the docket untied. Seven of the complaints were filed by Police Officer L. H. White and one by Police Officer W. S. Martin.

The Quinine That Does Not Affect the Head

Because of its tonic and laxative effect, LAXA-TIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness nor ringing in head. Remember the full name and look for the signature of E. W. GROVE, Inc.

OUSLEY DUE FOR VISIT SOON.

Hon. Clarence Ousley, director of the extension service of the college, and assistant secretary of agriculture at Washington during the period of the war, will be in Texas for two or three days between May 15 and 18, and will devote most of his time to hearing reports from heads of the de-partments in the extension service. So far, he is not scheduled for any addresses, but will go from here to Kansas to address the bankers asso-ciation of that state.

TABOR HIGH SCHOOL.

The Tabor High school will close May 13. The commencement sermon will be preached Sunday, May 12 at 3 P.M. by Rev. A. S. Whitehurst of Caldwell, Texas. The graduating exer-cises will be Monday night, May 13. W. S. Barron will deliver the address Monday night.

Everybody invited.

P. M. Vance.

Piles Cured in 6 to 14 Days

Druggists refund money if Pazo Intimate fails to cure itching, blind, bleeding or protruding Piles. Instantly relieves itching Piles, and you can get restful sleep after the first application. Price 50c.

Catarrh of Stomach

Mrs. Mary Fennell, R. F. D., Po-mona, Missouri, writes:

"I wish to say a few words in the praise of Peruna. I have used it with good results for cramps in the stomach. Also found it the very thing for catarrh of the head. My sister was cured of catarrh of stom-ach by the use of Peruna."

Mrs. E. T. Chomer, 63 East 42nd St., Chicago, Ill., says: "Manalin best laxative on the market for liver and bowels, very good for indigestion and heart burn."

Those who object to liquid medi-cines can secure Peruna tablets.

Made Well By Peruna. My Sister Also Cured By PE-RU-NA

For Indigestion, Constipation or Biliousness

Just try one 50-cent bottle of LAX-FOS WITH PEPSIN. A Liquid Digestive Laxative pleasant to take. Made and recommended to the public by Par-medicine Co., manufacturers of Laxative Bromo Quinine and Grove's Tasteless chill Tonic.

Farm Labor Shortage in Texas Can Be Relieved by Importations From Mexico

(By Associated Press)

Austin, Texas, May 7.—Demand for 1,000 laborers to work in the cotton and corn fields of the state has been made upon T. W. McClellan, state farm specialist for the federal department of agriculture, and the only relief comes from the importation of Mexican laborers into Texas. This announcement is made by Mr. McClellan, who also is connected with the state department of labor.

Federal restrictions over importation of Mexicans into this country also makes it difficult to employ Mexicans. Mr. McClel-lan said. Many of them fear they will be drafted into the army after they get into the United States and refuse to accept as-surances to the contrary. Then, the fact that each immigrant crossing the border is required to have two pictures taken, one for his passport and the other for the authorities, also makes the Mexicans shy at crossing over, it is said.

Believing that some of these restrictions can be removed without hurt, the state council of defense plans to send a com-mittee to Washington to confer with authorities,

ANNUAL MEETING AND COTTON MILL TOPICS AT BUSINESS CLUB

From Tuesday's Daily Eagle
May 21, was decided upon as the date for the annual meeting of the Bryan and Brazos County Commercial Association. This action was taken by the directors at their weekly meeting this morning. President Johnson appointed the two constitutional committees which have a bearing on this annual affair, one of these being the committee to choose the seven chairmen of the standing committees, and the other being to choose the names of thirty six members eighteen of whom are to be chosen to fill out the directory with the seven committee chairmen. The increase to twenty-five directors is made possible by the new constitution, which will be submitted to the members at the annual meeting, and upon its adoption the election will be held.

The nominating committees were chosen as follows:

Committee to name seven directors to be chairmen of the seven standing committees—Ed. Hall, Wilson Bradley, A. M. Waldrop.

Committee to select thirty six members from whom 18 directors are to be chosen—J. T. Maloney, C. L. Beason, L. L. McInnis, R. S. Webb, J. D. Martin.

Chairman Fountain of the county council of defense reported that an effort to raise the \$250 called for by the state council will be pushed, and he anticipated no trouble in raising it. Chairman J. Webb Howell of the agriculture committee to whom has been referred the pink boll worm matter, read a letter from State Entomologist Scholl who stated that after the district court had declared the law against planting cotton in the restricted zone was without penalties many planters had begun planting, but that appeals to their good sense and patriotism had had the effect of causing about seventy-five per cent of them to destroy their cotton fields.

Taking a suggestion from the letter it was decided to formulate a strong resolution against planting cotton in the restricted zone and calling for the enforcement of the law against marketing such cotton as might be grown and all the commercial clubs in the state with a request for cooperation. The threat to quarantine the state if cotton is grown in the pink worm area has been made by the department at Washington, and hence every cotton growing section of the state is interested.

Allan Smith and J. H. Mawhinney were present in reference to granting permission to the International and Great Northern to do switching on Bryan street in daylight hours. Mr. Howell stated that he and Mr. Martin had given the matter attention and permission, at least for a temporary period, had been secured.

Ed. Hall offers a suggestion which he designated as "a dream." It was to the effect that those who have purchased liberty bonds of the third issue, now in excess of \$300,000, be solicited to transfer them for stock in a cotton mill to be located at Bryan, making the shares each \$50, so that the smallest bond owner could be a stockholder in the mill. This would give ample capital both for the purchase of site, building and machinery and provide for the operation of the mill. The cost of machinery is high, it was suggested by others, and hard to obtain, which might make it difficult to carry out the plan, but nevertheless the directors were willing to hear more of it, and agreed by formal vote to invite Prof. J. B. Bagley, head of the textile engineering department at the college, to address the directors talk on the machinery situation and the profits being made in the business.

State Bank Employees Waller as Architect

From Wednesday's Daily Eagle
A contract has been made by the First State Bank and Trust company with M. L. Waller, architect, for furnishing plans and specifications for the new bank building which is to be developed from the present building and that on the north side recently purchased. Mr. Waller and his superintendents are here for the opening of bids on the high school building, and before they return to Fort Worth will take measurements of the bank building and submit plans as soon as possible.

Step Lively! Corns Quit with "Gets-It"

The Great Corn-Loosener of the Age. Never Fails. Painless.

Watch my step? What's the use! I go along "right side up" without care, even with corns because I use "Gets-It," the painless, off-like-a-banana-peel corn remover. I tried other ways galore, until I was blue

Corns Simply Can't Stop Us, We Use "Gets-It!"

In the face and red in the toes, no more for me. "Gets-It," it never fails. Touch any corn or callus with two drops of "Gets-It," and "Gets-It" does the rest. It's a relief to be able to stop cutting corns, making them bleed, wrapping them up like packages and using sticky tape and salves. It removes any corn clear and clean, leaving the toe as smooth as your palm. You can wear those new shoes without pain, dance and be frisky on your feet. It's great to use "Gets-It." "Gets-It," the guaranteed, money-back-corn-remover, the only sure way, costs but a trifle at any drug store. Sold in Bryan and recommended as the world's best corn remedy by H. James, E. J. Jenkins.

AUSTRIA SOCIALISTS RAISE ROUGH HOUSE OVER EMPEROR'S ACT

(By Associated Press.)
Berne, May 7.—Labor and socialist organizations in Austria threaten to revolt against the government action in suspending parliament. Swiss newspapers print a telegram quoting Vienna newspapers to the effect that a committee of then socialist party and a committee of the German socialist deputies club have decided to issue a manifesto to the working class in regard to the government's action.

NEW MEAT PROGRAM TENDS TO ELIMINATE OLD MEATLESS DAYS

The new meat program announced by the food administration does not include "meatless days," but simply puts it up to every American to cut down his consumption of meat and that of his family.

First: By eliminating every ounce of waste.

Second: By curtailing purchases and buying more closely.

Third: By serving smaller portions.

The strictest economy in the consumption of all kinds of meat will prevent the re-institution of meatless days for the present, at least.

Mr. Hoover's telegram adds, "The necessities for shipment abroad to our allies are very large and amount to roughly 25,000,000 pounds of meat and meat products of all kinds per week against a pre-war normal of less than 15,000,000 pounds. Even with these large shipments, the allies have found it necessary to reduce the consumption of all kinds of meats and poultry to an average of about one and one-quarter pounds per week per person in order that no further draft should be made upon shipping that is now required for the transport of our soldiers.

Our consumption of meats is about three and one-quarter pounds per week per person and if we are to make both ends balance during the short marketing season we must have further economy."

Every true American will cheerfully comply with the request. Ours is no sacrifice compared with that made by the soldier exposing his life to shot and shell and the atrocities systematically planned by the Germans.

C. L. BEASON,
County Food Administrator.

ALL IS READY FOR 43D COMMENCEMENT

With the adoption by the college faculty Wednesday afternoon of the report of the committee on commencement exercises, calling for the beginning of the exercises Saturday, May 25, and their conclusion Tuesday, May 28, everything is in readiness for the forty-third annual commencement. President Bizzell announced yesterday, and the program will be carried out in full.

Prominent among the features of the commencement program will be the dedication of Gaudin assembly hall, Saturday morning at 10:30, a patriotic program by the Glee club Saturday night, followed by a reception to the alumni and other visitors at the Y. M. C. A., the commencement sermon Sunday morning by Dr. C. M. Sheldon of Topeka, Kans., the Y. M. C. A. address Sunday by Hon. Pat M. Neff of Waco, business meeting of the Alumni association at 3 p. m. Monday, the senior class play Monday night, followed by the final ball and the commencement address Tuesday morning followed by the presentation of diplomas and honor certificates by Gov. W. P. Hobby.

WHEAT, OATS, CORN

J. B. Dunn, one of the biggest planters in this section of the state, has prepared to live at home himself and also that those employed by him shall do likewise. He has perhaps the largest wheat acreage of anybody in this county or adjoining counties; at least it is the largest of which the Eagle has been informed, and he says it is doing fine. He has ten acres. Besides this he has 75 acres in oats that are also doing fine and a corn acreage big enough to supply all his needs and those of his tenants, so large in fact that he could not give the acreage exactly. Besides this all his tenants have gardens, and are preparing to save their foodstuffs for winter use.

CANNING DEMONSTRATION.

Miss Martha Gillespie, home economist, held her first canning demonstration in the new demonstration kitchen at the courthouse Saturday. Despite the short notice of her intentions and preparedness for the work, she had a crowd that exceeded the capacity of the kitchen. The court room was in use by the men. It is expected that she will give public demonstrations there every Saturday afternoon. The subject Saturday was beans.

The two distinct types of Eczema can be relieved readily by using Dry Zensal for the crusty, scaly skin and Moist Zensal for the watery eruptions. 75c. a jar.

Smith Drug Co.

ELEVEN OF TYLER'S CREW DROWN WHEN SUNK BY U-BOAT

(By Associated Press.)
New York, May 7.—American steamship Taylor, 3228 tons has been torpedoed and sunk off the French coast. Eleven members of the crew were drowned.

VERY LIGHT CRIMINAL DOCKET IN DISTRICT COURT NEXT TERM

The May term of the district court will be opened next Monday with Judge H. S. Morehead presiding. District Attorney W. C. Davis and Sheriff T. C. Wynn in attendance. The criminal business promises to be very light, but the civil business will be comparatively heavy for a spring term, owing partly to the fact that much of it in the last term was sidetracked for the Sapps case. Several new civil cases have been filed since the conclusion of the winter term. Those dated on which the sheriff has made returns are as follows:

M. E. Weaver vs. E. R. Williams, sequestration.

Robert Armstrong, executor of the estate of Mrs. I. J. Derrin, deceased, vs. L. M. Josey, et al., construction of will and partition.

Mrs. Hattie Borden vs. Neta Belle Borden, partition.

J. S. Royder vs. W. G. McNulty, et al., suit on note.

Magdalene Richey and R. T. Richey vs. Mrs. Mattie Alsen to remove cloud. Offie Williams vs. Chas. Wachle, et al.

Mrs. M. C. Berger vs. H. & T. C. R. Co., damages.

First National Bank of Bryan vs. Security Insurance Co. of New Haven, suit on policy.

Ella Clark, et al., vs. James A. Baker, receiver for I. & G. N. Ry. Co., damages.

Seventeen suits for divorce.

The jury for the first week of court is as follows:

To report May 14: H. W. Mochman, W. H. Cole, R. L. Hearne, R. A. Harrison, Wayne Davis, M. F. Vitopoli, J. T. Class, J. Webb Howell, O. G. Carson, R. W. Howell, J. A. Cunningham, H. C. McGee, H. H. Newton, C. M. Risinger, John Ellis R. L. Buchanan, George Ellis Jr., Albert Ryck, R. J. Vitopoli, A. J. Wallan, J. J. Roy, J. W. Beard, R. P. Park, V. C. Andrews, R. R. Ball, W. W. Weaver, A. C. Williams, W. G. Conway, Ross Suber, W. L. Vancy, Elmer Dodson, I. M. Cook, S. S. Rosier, R. L. Brogden, Elwin Carroll, E. B. Elliott.

STEVEDORES WANTED.
Smithville, Tex., May 8.—H. W. Lewis, federal state director of the U. S. public service reserve, Smithville, Texas, has been asked to secure men for stevedore regiments, over-seas service, quartermaster's department.

Many men are needed in this service, and can be inducted or enlisted between the ages of 18 and 49. They will enter the service at once and receive the usual army rate of pay with customary allowances for dependents.

Stevedores are hard to find at this time, and the quartermaster's department will accept any good, husky laborer, whether he be white or negro. The quota for Texas is 80, and it is hoped that this number can be obtained without difficulty. A letter of application should be sent to Mr. Lewis, stating applicant's age, height, weight and physical disabilities, if any, accompanied by at least two letters of reference.

HALF MILLION MEN.

Washington, May 8.—More than half a million American soldiers have been sent to France. Secretary Baker late Wednesday authorized the statement that his forecast to congress in January that 500,000 troops would be dispatched to France early in the present year now had been surpassed.

Jeff Davis was here from Caldwell this morning.

W. H. and John Peyton of Benchley were in town last evening.

MAMA! DON'T YOU SEE YOUR CHILD IS SICK, CONSTIPATED

Look at Tongue! Move Poisons From Liver and Bowels at Once.

Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign its little stomach, liver and bowels need a cleansing at once.

When listless, pale, feverish, full of cold, breath bad, throat sore doesn't eat, sleep or act naturally, has stomach ache, diarrhoea, remember a gentle liver and bowel cleansing should always be the first treatment given.

Nothing equals "California Syrup of Figs" for children's ills; give a teaspoonful, and in a few hours all the foul waste, acid bile and fermenting food which is clogged in the bowels passes out of the system and you have a well and playful child again. All children love this harmless, delicious "fruit laxative," and it never fails to effect a good "inside" cleansing. Directions for babies, children of all ages and grown-ups are plainly on the bottle.

Keep it handy in your home. A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a bottle of "California Syrup of Figs," then look and see that it is made by the "California Fig Syrup Company."

Starting Something Hard to Finish

To the Daily Eagle.
"It is not patriotism to produce anything at a loss" was not made as a statement by me, but was taken from a resolution, or rather the combined opinion of producers at a recent conference of producers at Chicago. However, since our worthy food administrator, Mr. Beason, considers it of enough importance to fill up perfectly good space in a news, perhaps would do no harm to look at the statement from all view points.

Loss is not always figured in dollars and cents.

Our one great aim at present is to produce food, something to feed our boys as soldiers and our allies. That is the paramount object sought.

In the case of livestock, unless it is a most efficient transformer of raw material into a finished product (food) we are defeating the main purpose by feeding grains that could be used as foods before being fed to livestock or poultry. This happens in many cases. If a bushel of corn, fed to an animal and transformed into the finished product in the shape of meat, milk, eggs, etc., does not contain as much nourishment as in the original form, it is a loss in nourishment, and would be the extreme of foolishness to practice it. This happens every day, although some of our school teachers don't know it. I am not saying in defense

of the statement, and I am not saying that that was the way it was meant by all. I know that such was its meaning as expressed by many.

A person growing corn, and perhaps netting less than another person growing cotton, could most certainly not be termed unpatriotic. He is the greatest patriot of all producers.

Taking this statement word for word we all would have to admit that the person producing anything at a monetary loss is a patriot but he is not as good a patriot as the person produces an equal amount of nourishment at a monetary profit.

Some of us do not practice what we preach. We so often forget ourselves, and try to demonstrate something we have never been able to do ourselves.

At this critical time of our nation's history, articles as written by Mr. Beason do a thousand times more destruction than construction, and a thousand times more harm than good. This is a hard, cold and relentless yet absolutely true statement.

I would certainly not endeavor to tell Mr. Beason what true patriotism means, but I believe that actions, results and performances are better than talk and good intentions.

Yours truly,
F. W. KAZMEIER
Plain Citizen of the United States.

FIRST WAR CURRENCY COMING OUT JULY 4

(By Associated Press.)
Washington, May 7.—The first war currency reserve bank notes of one and two dollar denominations were approved today. They will make their appearance about July fourth.

AMERICAN STEAMER DEFEATED U-BOAT

(By Associated Press.)
Washington, May 7.—The American steamer Tidewater was in a fight with a German submarine March 17, in which the under water boat was defeated and probably sunk, the navy department reports today.

CANNING CLUB GIRLS TO FEED THE TROOPS

In response to a request from the Navy league, T. O. Walton, acting director of the extension service of the college, and Miss Laura F. Neale, head of the home demonstration work, have arranged a system of enlistment whereby everyone of the 7,000 canning club girls of Texas will have an opportunity to serve their country by providing jellies, jams and preserves for the use of the Sammys while they are aboard the transports en route to France.

Every canning club director in the state has been requested to ask every member of her club to furnish at least one container of jam, jelly or preserves each month from now until September, and each girl is asked to put her name on the label of the container so as to give the remembrance for the fighting men as large a personal touch as possible.

"If every canning club girl in Texas will furnish just one container of sweets a month, this will provide jam, jelly, marmalade or preserves for 7,000 to 14,000 men a month," Mr. Walton declared yesterday, "and I hope the 7,000 Texas girls will respond to this plan with a 100 per cent club."

Belgian Colors are Flaunted before Huns

(By Associated Press.)
Paris, May 8.—A coal-black negro, a citizen of the Belgian Congo, dressed completely in red, propelling a push cart painted yellow, may be seen on the boulevards of Brussels, says Libre Belgique, the Belgian newspaper which the Germans have been unable to suppress. The negro is selling shoes. Belgians who still possess shoes take great pleasure in buying from the negro.

He is doing a rushing business and will probably continue to do so until it filters through the Germans' thick cranium that the quality of the shoe polish is not the reason for the negro's popularity with purchasers but because as he perambulates down the boulevards his black visage, red costume and yellow cart represent a living Belgian flag.

Then it will be the "Kommandantur" and the coal shade of St. Gilles prison for the black, red and yellow man.

SUGAR FOR MANUFACTURERS.
Effective on May 15, manufacturers who use sugar in any way whatsoever, in order to purchase sugar in any quantity whatever, must present to either a wholesaler or retailer a duly executed certificate signed by the federal food administration. The manufacturer must first make a report to the nearest administrator as to the quantity of sugar that they have been using in normal times, also the quantity that they have been using since November, 1917, and also for what purposes they are using sugar.

ABANDON ORCHESTRA.
(By Associated Press.)
St. Louis, May 8.—Owing to the sacrifices demanded for the successful prosecution of the war, the St. Louis symphony orchestra faces disbandment. This announcement was made recently after a meeting of the executive board at which some of the contributors were present.

Drives Out Malaria, Builds Up System
The Old Standard General Strengthening Tonic, GROVE'S TASTELESS CHILL TONIC, drives out Malaria, enriches the blood, and builds up children. A true tonic. For adults and children, 50c.

Feeding and Breeding Station Demonstrates Possibilities of Poor Upland Soil of this County

The feeding and breeding station, near college, is a growing example of how a poor upland soil may be made over to fit the needs of a developing agriculture. "Growing," because with every day the success of scientific agricultural methods becomes more and more apparent in the almost visible lengthening of leaves and expansion of stem. Probably no finer corn may at this time be seen anywhere in the state than that on this station and on the crop farm just to the south. All other crops are characterized by correspondingly perfect stands, the sum of the success being due to the good physical condition of the soil.

The fine spring weather has drawn many Bryan motorists out for a visit to these two experiment farms, on the pretext of "seeing the bear." It is an encouraging prophecy for the future of Brazos county that they usually elect to stay and see the chickens and the horses and the hogs and all the rest, long after Brother Bruno has ceased to compel interest.

There is a good road running through these farms and B. Young, blood, director of the Texas agricultural experiment station, is anything but averse to visitors. He does everything he can to make them feel that they are welcome. For, as he points out, anything that is good for the country is good for the town, inasmuch as the latter is largely dependent on the prosperity of the rural communities. Moreover, the city people—particularly the business men—have many opportunities to meet the country people and tell them what is going on.

The word which has meant successful crop production on these farms is composed of six letters, thrift. A combination which has of late assumed the importance of a

definite policy throughout our war-ringing nation. Starting with a very poor farm, the experiment station began growing livestock, using the manure produced, together with rotations, commercial fertilizers, similar sound agricultural practices to improve an impoverished soil. Results have shown steady increase in crop yields.

A herd of 300 registered Duroc Jerseys, highly developed as the outcome of rigorous selection, are not the least interesting of the many attractions. Although the experiment station has been experimenting with a dairy for the purpose of testing dairy feeds, approximately \$500 worth of dairy products are produced every month.

A gigantic incubator having a capacity of 2,400 eggs is steadily at work turning out chicks that are to help beat the kaiser. This artificial hen is being enlarged by sections of a capacity of 600 eggs each every year. The ultimate limit of the machine is 6,000. A brooder house having facilities for caring for 6,000 of the fluffy orphans, provides for the output of the hatching device. As soon as the young chicks are old enough they are placed in colony houses in fields with growing crops such as corn or sorghum.

Cotton breeding work is being conducted on principles which are making it valuable throughout the state. Only an actual inspection of the various projects that are being conducted can reveal the popular interest which both the feeding and breeding station and the crop farm deserve. They never fail to inspire in loyal Brazos county citizens an increased respect and confidence in the ability of the upland soils to produce bumper crops when tilled under business-like system of husbandry.

ing Mr. and Mrs. Will Foster and family.

Mrs. W. P. Bullock and daughters, Misses Myrtle and Gladys, spent Saturday night and Sunday visiting Mr. and Mrs. Jno. Riley at Palestine.

The patriotic program will be given Friday, May 17th as stated in last week's paper.

Mrs. L. A. Cloud from Bryan is the guest of her daughter, Mrs. C. P. Bullock, this week.

Miss Katy Hall is visiting relatives in Bryan.

Mr. and Mrs. Esker Martin were called to Bryan Sunday by the severe illness of Mrs. Martin's grandmother, Mrs. Bond.

EDGE.

Edge, May 1.—The sky is clear after another good rain and the farmers are busy working out their crops. Gardens are the best ever seen in these parts. Lots of Irish potatoes are ready to be gathered and marketed.

The Red Cross ladies have been doing good work in this community. Over eighty garments have been finished in the last six or seven weeks.

Three of our best friends and citizens went to San Antonio to join the colors last week. We know they will make good soldiers, because they were good, brave, hard working boys at home.

Edge is coming with her Liberty bonds, but think we lack a little of having our quota yet.

Everybody come to the Sunday school. We want 150 next Sunday.

Nothing Reached His Case Until He Took Tanlac; Has Gained Fourteen Pounds.

"I have been laid up, unable to do any work for the past seven years," said Samuel L. Rainey of 1450 East Texas street, El Paso, Tex., recently. "I suffered from a complication of troubles," he continued, "that seemed to puzzle those who examined me and no treatment or medicine did me any good. Some said I had rheumatism and others said something else and I took so much strong medicine that my stomach became all upset and my nerves completely shattered."

"My feet pained me so at times I couldn't stand on them and would swell until I couldn't get my shoes on. Great knots the size of hen eggs would come out on my body. I had terrible pains in the back of head running down in the small of my back, and at times I couldn't move without help. My stomach was in such a bad condition I had to live on liquid diet for weeks at a time and even this would sour and cause my heart to flutter and almost cut off my breath. I was so nervous and miserable I never knew what it was to get a good night's sleep and no one knows the suffering I had to endure."

"My folks have spent lots of money for me and I have taken enough medicine of different kinds to stock a small drug store, but nothing seemed to reach my case until I got Tanlac. I have gained 14 pounds and while I don't claim to be well yet, I'm so much better and am improving so fast that I have good reason to believe my troubles will soon be a thing of the past. My appetite is fine and everything I eat seems to agree with me perfectly. My nerves have quieted down and the swelling and pain have subsided until I can sleep and rest well and I'm simply feeling better in every way than I have in several years."

Tanlac is sold in Bryan by N. A. Stewart, in Wellborn by J. P. Royder, in Edge by Moore & Payne, in Allen-farm by Terrell Brothers and in Tabor by J. K. Prenal. Adv.

To Cure a Cold in One Day.

Take LAXATIVE BROMO Quinine. It stops the Cough and Headache and works off the Cold. Druggists refund money if it fails to cure. R. W. GROVE'S signature on each box, 30c.

CALOMEL DYNAMITES A SLUGGISH LIVER

Crashes Into Sour Bile, Making You Sick and You Lose a Day's Work.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea. If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tonic for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides it may salivate you, while if you take Dodson's Liver Tonic you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it.

For Infants and Children In Use For Over 30 Years
